

## Fun Facts About Teeth!

We have 4 different types of teeth for **bitting, tearing, crushing and grinding**

Raw fruits and vegetables like **apples, carrots and celery**, help clean your teeth when you eat them

If a tooth gets knocked out, quickly take it to your dentist in a cup of milk to have it placed back into your mouth

Rabbit teeth **never stop growing**, so they keep them worn down by chewing on hay, bark and other hard foods

Sharks have **3 rows of sharp teeth and 2 jaws**. A shark can change almost **40 sets** of teeth in its entire life

Your dental plaque contains more than **300 species** of bacteria

Snails have about **25,000** teeth on their tongues

Unlike humans, when a crocodile loses a tooth, **another one grows** to replace the old one

**TIP:** Change your toothbrush at the start of every new season: **Winter, Spring, Summer and Fall**
