

Updated: May 4, 2020

The team at Argus Dental & Vision has been closely monitoring the COVID-19 situation, along with its implications for public health and safety. We are closely following official guidance by the Centers for Disease Control (CDC) and the World Health Organization (WHO).

The Governor of Florida issued [Executive Order 20-112](#), which outlines protocols that need to be met in order to restart elective procedures. This executive order supersedes the conflicting provisions of [Executive Order 20-72](#).

Please find a [list of FAQs](#) for Executive Order 20-112.

If you have a dental or vision emergency and you can't get through to your current provider or need help with finding one who can speak to you over the phone, please call the Argus Customer Care Center at 877-864-0625. We are open to receive your call from 8 AM to 8 PM EDT Monday through Friday.

Argus Dental & Vision has implemented its business continuity plan to ensure Argus employee safety as well as keeping fundamental business operations intact. We want you to know that we're here to help you during this difficult time.

Stay safe and healthy!
